## Dr. Reddy's Laboratories in India

Dr. Reddy's Laboratories commenced its generics business in India in 1986 and is today a trusted name in the healthcare industry consistently serving the needs of millions of patients with high quality, affordable and innovative medicines across therapy areas.

## Portfolio spanning wide range of therapy and disease areas

Over the years, the company has significantly grown its portfolio of products across mass and specialty therapies. Today, our portfolio has over 200 products covering the whole spectrum of disease areas spanning gastroenterology, oncology, pain management, cardiovascular, dermatology, urology, nephrology, rheumatology and diabetes. Seven of our brands are listed in "Top-300 of the Indian Pharma Market" and many others hold leadership positions in their respective categories.

## Ensuring that medicines are available when needed

Dr. Reddy's has built a robust field force driven by the zeal to make a difference in the lives of patients. The 8000-member strong team network connects with more than three lakh doctors on a regular basis to ensure that quality medicines we make are available for patients across the length and breadth of the country. Their efforts are backed by our unique inventory management system, VIVA (Viable Vision), to ensure that the medicines are available for patients when they need it.

## Going beyond the pill to address patient needs

As a company we have progressively transitioned from being a maker of molecules to a provider of medicines. Along the way we developed a deeper empathy for the needs of patients and their caregivers. This has impelled Dr. Reddy's as an organization to go beyond medicines and leverage our capabilities to meet some of these unmet patient needs. Our Purple Health initiative in India aims at taking patient care beyond the pill focusing our efforts in four areas:

- Disease awareness and convenient diagnosis
- Access to medicines
- Better therapy experience
- Adherence to therapy

## ACEROC P

Composition : Aceclofenac & Paracetamol Tablets IP

Packing : 20x10

**MRP : 79.75**

### Indication :

It reduces pain and fever. It is used more commonly to relieve Body pain, toothaches, headaches etc. Aceclofenac + Paracetamol works effectively against the pain as well as the fever.

## ACEROC P

Composition : Aceclofenac & Paracetamol Tablets

Packing : 20x15

**MRP : 119.60**

### Indication :

It reduces pain and fever. It is used more commonly to relieve Body pain, toothaches, headaches etc. Aceclofenac + Paracetamol works effectively against the pain as well as the fever.

## CEFIWOK 100 & 200 DT

Composition : Cefixime Dispersible Tablets 100mg & 200mg

Packing : 20x10 | 20x10

**MRP : 134.00**

**MRP : 109.40**

### Indication :

Cefixime is used to treat bacterial infections in many different parts of the body. It belongs to the class of medicines known as cephalosporin antibiotics. It works by killing bacteria or preventing their growth.

## CIPROLET N 250 & 500

Composition : Ciprofloxacin Tablets 250mg & 500mg

Packing : 20x10 | 20x10

**MRP : 24.86**

**MRP : 47.60**

### Indication :

Ciprofloxacin is a broad-spectrum antibiotic which means that it's used to treat a number of bacterial infections, such as:

- Uncomplicated urinary tract infections (UTIs) where other antibiotics are not suitable and complicated UTIs.
- Chest infections (including pneumonia)
- Skin and bone infections.

## CIPROLET TZ

Composition : Ciprofloxacin and Tinidazol Tablets

Packing : 20x10

**MRP : 180.00**

### Indication :

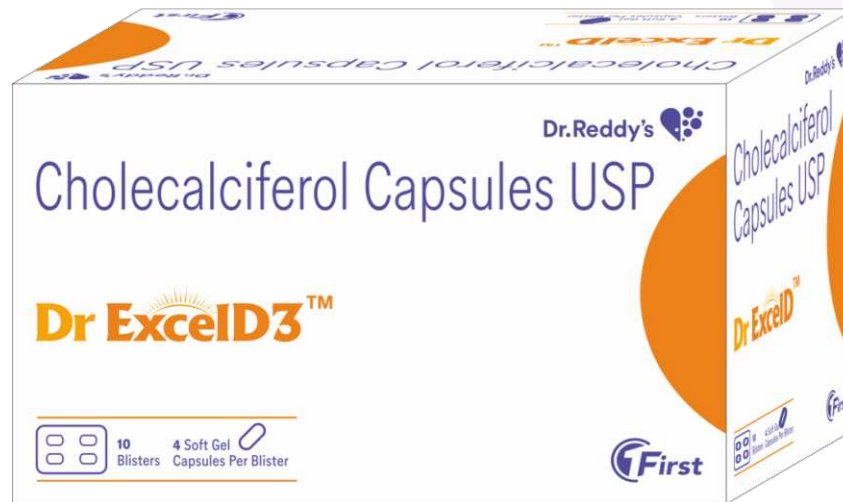

Ciprofloxacin + Tinidazole is used for bacterial & parasitic infections. It is used for the treatment of gastrointestinal infections such as acute diarrhea or dysentery, gynecological infections, lung infections and urinary infections.

## DR EXCELD3

Composition : Cholecalciferol Capsules USP 60000 IU

Packing : 10x4

**MRP : 137.80**

### Indication :

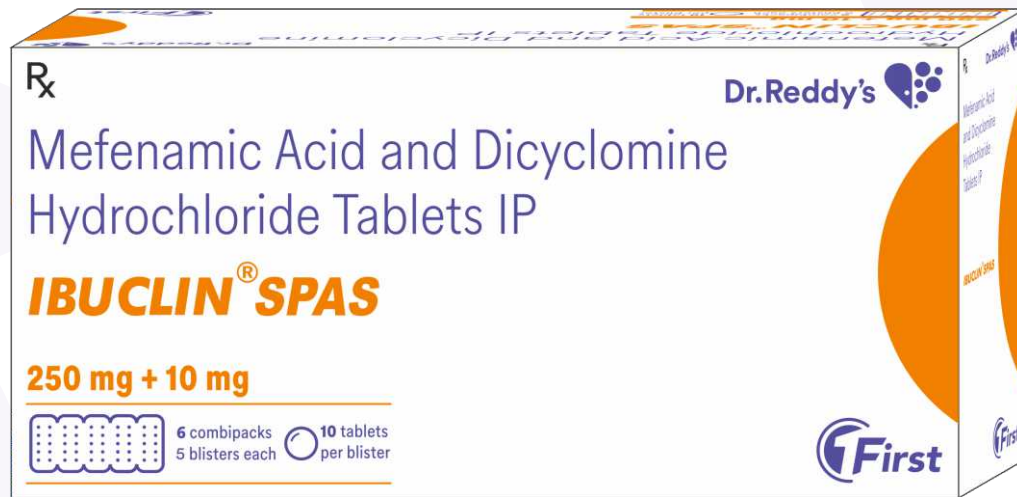

Cholecalciferol can help deal with vitamin D3 deficiency. It may reduce fatigue and weakness associated with vitamin D3 deficiency. Moreover, it can help in the absorption of calcium into the body for better bone health. It contains vitamin D3 (cholecalciferol (60000IU)) which helps in the processing of essential minerals in the body like calcium and phosphorus.

## IBUCLIN SPAS

Composition : Mefenamic Acid and Dicyclomine Hydrochloride

Packing : 6x5x10

**MRP : 53.00**

### Indication :

It is a tablet used to relieve menstrual pain and cramps. It blocks the chemical messenger cyclooxygenase enzymes, or COX, thereby relaxing the inflammation of muscles. It basically helps relax muscles due to its anti-inflammatory properties.

## Kidmol Suspension

Composition : Paracetamol Paediatric Oral Suspension IP 125mg & 250mg

Packing : 60ml | 60ml

**MRP : 22.80**

**MRP : 42.60**

### Indication :

It is used for the treatment of fever and pain in children. It also provides relief from headache, toothache, backache, musculoskeletal pain etc. associated with/without fever.

## Levorac 250, 500 & 750

Composition : Levofloxacin Tablets IP 250mg | 500mg | 750mg

Packing : 10x1x10 | 10x1x10 | 10x1x5

**MRP : 53.30**

**MRP : 98.50**

**MRP : 67.80**

### Indication :

It is an antibacterial medicine that is used to treat bacterial infections of the urinary tract, nose, throat and skin. It contains levofloxacin as its main ingredient that belongs to the group of antibiotics called fluoroquinolone.

## LEVORAC IV

Composition : Levofloxacin Infusion IP (With Sodium Chloride)

Packing : 100ml

**MRP : 169.12**

### Indication :

Levofloxacin injection is used to treat bacterial infections in many different parts of the body. It is also used to prevent an anthrax infection after inhalational exposure. This medicine is also used to treat and prevent plague (including pneumonic and septicemic plague).

## NISE IV

Composition : Paracetamol Infusion IV IP

Packing : 100 ml

**MRP : 400.96**

### Indication :

PARACETAMOL INFUSION IP contains 'Paracetamol,' which is an analgesic (relieves pain) and an antipyretic (reduces fever), generally used for mild to moderate pain. It prevents the formation of chemical messengers called prostaglandins, which cause pain and swelling at the injury sites.

## NORILET-OZ

Composition : Ofloxacin and Ornidazole Tablets IP

Packing : 20x10

**MRP : 107.80**

### Indication :

Norilet OZ is combination of Ofloxacin & Ornidazole in tablets, is used to treat various bacterial and parasitic infections. This combination is commonly used to treat gastrointestinal infections like acute diarrhea or dysentery, gynecological infections, lung infections, and urinary infections.

## NORILE1T-TZ

Composition : Norfloxacin and Tinidazole Tablets

Packing : 5x4x10

**MRP : 120.00**

### Indication :

Norilet TZ is Norfloxacin & Tinidazole combination used to treat bacterial infections in the gastrointestinal and urinary tracts. This combination is used to treat diarrhea, dysentery, and severe stomach infections

## OMEZYME

Composition : Diastase & Pepsin Liquid (Mixed Fruit & Cardamom)

Packing : 200ml | 200ml

**MRP : 160.00**

**MRP : 160.00**

### Indication :

This is a digestive aid primarily used to treat digestive disorders. It is also an appetite stimulant (increases hunger), effectively treats acid indigestion (heartburn), flatulence (gas), epigastric distress (upper abdominal pain), and eructation (burping).

## PANGRAM DSR

**Composition : Pantoprazole Gastro-resistant and Domperidone Prolonged release Capsules IP**

**Packing : 10x20**

**MRP : 165.33**

### **Indication :**

**PANTOPRAZOLE+DOMPERIDONE** is a widely used medicine to treat peptic ulcers and gastroesophageal reflux disease (GERD). **PANTOPRAZOLE+DOMPERIDONE** prevents the release of stomach acid and relieves symptoms of food pipe lining inflammation (esophagitis), and gastroesophageal reflux disease (GERD), or heartburn.

## PLAGRIL 75

Composition : Clopidogrel Tablets

Packing : 10x2x10

**MRP : 74.20**

### Indication :

It is used for the (lowering the chance) of heart attack. It is a combination of medicines that prevent clot formation in the blood vessels.

## REDIPENEM

**Composition : Meropenem Injection IP 1000 mg**

**Packing : 1 Vial**

**MRP : 1067.00**

### Indication :

Meropenem is used in severe bacterial infections. It is used in infections of various body parts like skin and soft tissues, urinary tract, blood, brain and lungs (pneumonia). It is an antibiotic that kills bacteria by preventing them from forming the bacterial protective covering (cell wall) which is needed for them to survive.

## SUPAMOVE GEL

Composition : Diclofenac, Virgin Linseed Oil, Methyl Salicylate & Gel

Packing : 30g

**MRP : 174.25**

### Indication :

This is used for the treatment of pain, swelling and inflammation due to muscle, joint and bone-related disorders. It is used in relieving pain due to sprains, strains, tendinitis, bursitis, hand, neck, shoulder pain, sciatica, muscle stiffness, joint pain, backache.

## TELMISTA 20mg

Composition : Telmisartan Tablets 20 mg

Packing : 15x15

**MRP : 65.00**

### Indication :

Telmista has telmisartan 20mg, is an angiotensin II receptor blocker (ARB) used to treat high blood pressure. It helps lower blood pressure, reducing the risk of strokes, heart attacks, and kidney problems

## TELMISTA 40mg

Composition : Telmisartan Tablets 40 mg

Packing : 15x15

**MRP : 113.50**

### Indication :

Telmista has telmisartan 40mg, is an angiotensin II receptor blocker (ARB) used to treat high blood pressure. It helps lower blood pressure, reducing the risk of strokes, heart attacks, and kidney problems

## TELMISTA 80mg

Composition : Telmisartan Tablets 80 mg

Packing : 10x15

**MRP : 174.70**

### Indication :

Telmista has telmisartan 80mg, is an angiotensin II receptor blocker (ARB) used to treat high blood pressure. It helps lower blood pressure, reducing the risk of strokes, heart attacks, and kidney problems

## TELMISTA CT 40 & 80

Composition : Telmisartan Chlorthalidone Tablets 40mg & 80mg

Packing : 10x1

**MRP : 209.50**

**MRP : 337.50**

### Indication :

Telmisartan + Chlorthalidone belongs to the class of anti-hypertensives primarily taken to treat hypertension (high blood pressure). Hypertension or high blood pressure is a life-long or chronic condition in which the blood pressure against the artery wall becomes too high.

## TELMISTA - H

Composition : Telmisartan and Hydrochlorothiazide Tablets IP 40mg/12.5mg

Packing : 1x14

**MRP : 321.75**

### Indication :

Telmisartan and hydrochlorothiazide combination is used to treat high blood pressure (hypertension). High blood pressure adds to the workload of the heart and arteries. If it continues for a long time, the heart and arteries may not function properly.

## TELMISTA - H 80

Composition : Telmisartan and Hydrochlorothiazide Tablets IP 80mg/12.5mg

Packing : 1x14

**MRP : 488.00**

### Indication :

Telmisartan and hydrochlorothiazide combination is used to treat high blood pressure (hypertension). High blood pressure adds to the workload of the heart and arteries. If it continues for a long time, the heart and arteries may not function properly.

## TELMISTA - M

Composition : Telmisartan & Metoprolol Chlorthalidone Tablets

Packing : 1x10

**MRP : 164.00**

### Indication :

Telmisartan, metoprolol, and chlorthalidone are used together to treat high blood pressure (hypertension). This combination helps lower blood pressure by affecting different parts of the cardiovascular system. Metoprolol reduces heart rate and force, while telmisartan relaxes blood vessels, and chlorthalidone helps eliminate excess fluid and salt from the body.

## TELMISTA - TRIO

Composition : Telmisartan, Amlodipine & Hydrochlorothiazide Tablets

Packing : 1x10

**MRP : 174.42**

### Indication :

Telmisartan, Amlodipine & Hydrochlorothiazide tablets are used to treat hypertension (high blood pressure) when a single medication is not effective. The combination helps lower blood pressure by relaxing blood vessels and eliminating excess fluid. This helps reduce the risk of strokes and heart attacks.

## Throateasy DC+

Composition : Dextromethorphan Hydrobromide & Chlorpheniramine Maleate Cough Syrup

Packing : 100ml

**MRP : 130.00**

### Indication :

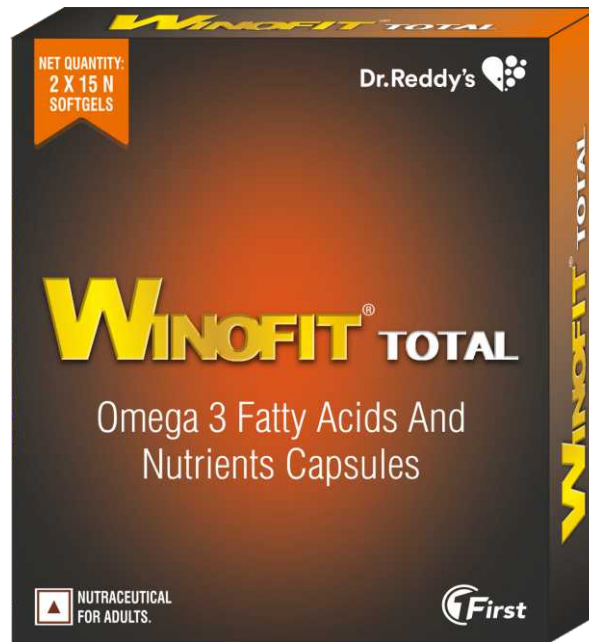

Thorateasy DC+ is the combination of Dextromethorphan HBr 10mg/5ml and Chlorpheniramine Maleate 4mg/5ml syrup, used to relieve cough and cold symptoms. Dextromethorphan is a cough suppressant that helps control coughing, while Chlorpheniramine is an antihistamine that helps alleviate symptoms like runny nose and sneezing.

## WINOFIT TOTAL

Composition : Omega 3 Fatty Acids And Nutrients Capsules

Packing : 2x15

**MRP : 213.00**

### Indication :

Omega-3 fatty acids are polyunsaturated fats that are essential nutrients for the body. They help cells function properly and are concentrated in the brain and eyes. Omega-3s may have many health benefits, including :-

- Lowering triglyceride levels
- Reducing the risk of coronary heart disease
- Building and maintaining a healthy body
- Generating energy and stamina
- Improving muscle quality and stamina.

## WOKADINE OINTMENT

Composition : Povidone - Iodine Ointment USP

Packing : 10g | 20g | 250g

**MRP : 22.60**

**MRP : 45.20**

**MRP : 565.00**

### Indication :

**POVIDONE IODINE** is an antiseptic and disinfectant used to treat and prevent skin infections in minor burns, lacerations (deep cuts in the skin), cuts, and abrasions (the first layer of skin is scraped off). It works by inhibiting the growth of infection-causing microbes.

## WOKADINE Powder

Composition : Povidone - Iodine Powder 5% w/w

Packing : 10g

**MRP : 96.00**

### Indication :

**POVIDONE IODINE** (poe-vee-don ahy-uh-din) is used on the skin to decrease risk of infection. This medicine is also used as a surgical hand scrub and to wash the skin and surface of the eye before surgery to help prevent infections.

## WOKLAV CV 625

Composition : Amoxicillin and Potassium Clavulanate Tablet

Packing : 10x6x3

**MRP : 122.80**

### Indication :

Amoxicillin and clavulanate combination is used to treat bacterial infections in many different parts of the body (eg, ear, lungs, sinus, skin, urinary tract). Amoxicillin and clavulanate combination is an antibiotic that belongs to the group of medicines known as penicillins and beta-lactamase inhibitors.
